Protest

Effective 6/13/2008 BOD P1 GR-050 Protest Rule Procedure

The following Protest Rule Procedures are recommended by the GR-050 Protest Committee:

Introduction: In November of 2007 the AMHA Board of Directors established a committee to review and rewrite a new height protest rule to be presented to the membership at the 2008 Annual Convention. The Board of Directors, in November 2007, voted to overturn the wording of the GR-050-C Protest Concerning height which was pass by the membership at the 2007 Annual Convention. The GR-050-C Committee and the Show Rules Committee presented the revised wording of GR-050-C to the membership at the 2008 Conventions. The membership voted to approve and implement immediately the new wording of the height protest rule, **GR-050-C, Protest Concerning Height**.

The AMHA Board of Directors approved the procedures to be used for the consistent implementation of **GR-050-C Protest Concerning Height**.

GR-050-C Protest Concerning Height: The measurement of a horse may be protested at any time prior to the end of the show so long as the horse is present on the show grounds. The protest must be made in writing accompanied by a \$100 deposit.

Implementation Procedure: A protest committee will be employed and follow all procedures directed and required for protest measurements in GR-050.

Additional Procedures: The GR-050-C and Show Rules Committee recognize these procedures may create a tense atmosphere during the protest measuring process effecting accurate measurement of a horse. The committees recommend to the AMHA Board of Directors a policy which allows the protest measurement to be one quarte (1/4) of an inch over height qualifications for the protest measurement only.

The AMHA Board of Directors unanimously approved the policy. **Example:** Horse 'A' is protested as being too tall in a 30 to 32 class. Its original measurement was 31 $\frac{3}{4}$. The horse measures 32 $\frac{1}{4}$ by a protest measuring team. It meets the allowance authorized under the protest rule. It is therefore a legal horse at that show. (This $\frac{1}{4}$ inch amnesty only applies to Protest Measurements and not to regular measurements) The one quarter (1/4) in allowance is to be applied to **all** height categories.

All points, placings, awards will be relinquished by any horse who fails to meet height requirements under protest for **that show only**.

If the measurement is within legal height limits for the AMHA, but out of class height constraints, only the awards pertaining to effected height classes will be relinquished. **Example:** Horse 'B' measures 32 $\frac{3}{4}$ inches. Horse B forfeits the Grand Champion award along with the 30 to 32 inch halter class placings, **but may keep any award that is not height related, such as youth halter, halter obstacle, color, etc.** (The horse must forfeit the Championship Award, as a result of disqualification from the original height class).

If the horse measures above AMHA height requirements at its respective age it then loses ALL awards, points, and placings for that show.
