- A. Once Show Officials have followed the rules for measuring the horse (GR-020) and the horse has been measured, the measurement becomes the official height for that show ~~and is not protestable once the horse enters the ring. The height of the horse will be posted three (3) hours prior to the horse entering the ring. If any horse is shown where measurement is not posted (unless through Show Management error), in accordance with above, its height can be protested up to one hour after its class is completed.~~ The horse's height may be protested one time during the show provided the following requirements are met:
The protest is filed by an exhibitor, owner, and/or trainer of a horse in the same class or another class in that division qualifying for the same Championship.
The horse may be height protested prior to showing in a class and/or protest may be submitted within one hour following any class in which the horse competes. Exception: Division Championship classes are exempt from height protest.
If the protest follows a class, the class must be listed, the time the class ended, as well as the time the protest is submitted to the Show Official.
The protest measurement of the horse will become the official height measurement for that show and result in adjustment of any and all awards pertaining to height requirements for that horse.
If a protest is filed, the procedures for protest as outlined in GR-050 must be followed.
If the protest is upheld the owner, trainer and/or exhibitor of the protested horse is responsible for returning all awards and will be responsible for any costs incurred to replace awards.

1.9 All turnouts will enter the ring in a counter-clockwise direction at a working trot.

1.10 Both stock and non-stock horses exhibiting Pleasure, Country or Classic driving styles are allowed are to be judged according to the appropriateness for the style of the vehicle.

2.2 Bridles should fit snugly to prevent catching on the vehicle or other pieces of harness. A throatlatch and cavesson or noseband are mandatory.

4. Penalties:

a) Exceeding time allowed (every commenced second) 0.5 second

b) Knocking over start or finish marker 5 seconds

c) Knocking down or dislodging obstacle 5 seconds

2) A refusal comprises stopping or reining back before an obstacle. Stopping in front of an obstacle without dislodging it and without backing up followed immediately by driving clearly through is NOT PENALIZED. If the halt is prolonged or if the animal backs even a single step voluntarily or not, a refusal is incurred. If in the commission of the refusal any part of an obstacle is disturbed and class specifications require repair or resetting, the procedure outlined in Article 113.2.2.6 Item 3 Stopping Time will apply.

3) A circle is any form of a circle which causes the driver to cross the original track between two consecutive obstacles except to retake an obstacle after a refusal or run-out.

The start/finish gate/s are considered dead after the competitor passes thru the start gate and until the competitor passes thru the last obstacle.

i) Exceeding time limit (2X time allowed) Elimination

j) Outside assistance Elimination A driver shall be eliminated if a groom or passenger touches the reins, whip or brake or if he receives assistance from any source.

1. When posing your horse, stand toward the front facing the horse but always in a position where you can keep your eye on the judge. The following Quarter system will be used whereby imaginary lines bisect the horse into four equal parts as seen in the illustration (Note: the quadrants are numbered I, II, III, IV for ease of identification). One line runs across the horse just behind the withers. The other imaginary line runs from head to tail. The exhibitor should lead the horse straight to the judge so the judge can evaluate the horse's front leg movement. Once the horse is safely located in front of the judge, the horse should be squarely set up for inspection and the exhibitor then locates in the proper position in quadrant IV. As the judge moves to quadrant I the exhibitor should stay in quadrant IV. When the judge moves on to quadrant II the exhibitor then moves to the proper position in quadrant I. When the judge moves to quadrant III the

exhibitor moves back to quadrant IV. As the judge moves to quadrant IV, the exhibitor once more moves to quadrant I. The exhibitor should never stop in the unsafe location directly in front of the horse. When the judge returns to his position in front of the horse, the exhibitor should ~~return to quadrant IV and~~ await instructions from the judge. When released by the judge the horse should be pivoted directly in front of the judge and moved away in a straight line so judge can observe the horse's rear leg movement.
